

Above-ground Burials

Above-ground burials

To accommodate each individual's needs, Nudgee Cemetery offers several types of burial and memorial facilities.

It is recommended to visit the Cemetery to view the various facilities and discuss these options with our onsite staff. Once the desired type of facility is identified, a selection can be made from available sites.

Above Ground Vaults

The vaults are purchased in plain concrete, which allows the family to finish their vault in a style and granite of their choosing. Above-ground vaults are preferred by people who would choose to be interred side-by-side.

Family Chapels

A Family Chapel is an alternative to the traditional in-ground burial and is constructed of concrete as a single unit comprising either 8 or 10 beds, in which an entire family will eventually be at rest together.

The family chapels are designed to allow an area for prayer and family memorabilia. The chapels can be appointed in the family's choice of granite.

Community Chapels

Community Chapels are an alternative to the traditional in-ground burial. The Community Chapel is constructed of concrete with each chapel comprising of 16 beds. These beds, while usually purchased in pairs, can also be purchased individually.

The Community Chapel beds are purchased complete with granite in a choice of available colours. Traditionally the granite covers have had the inscription cut into the granite, however the Cemetery now offers Bronze Plaques to add that personal touch.
